

Department of Anatomy
Dr. Ishrat-ul-Ebad Khan Institute of Oral Health Sciences - DUHS
Syllabus Outline for FOUNDATION MODULE (ANATOMY)
BDS First Year-Batch 20 (Year 2025-26)

General Anatomy

- Introduction & Terminologies
- Terms of Movement
- Skeleton (Bone)
- Joints
- Muscles

General Histology

- Introduction to Microscopy & Tissue staining
- The Cell & Cell Surface Modifications
- Epithelium & Cell Junctions
- Glands (Glandular epithelia)
- Connective Tissue
- Connective Tissue Proper
- Cartilage
- Bone & Development of Bone
- Muscle Tissue

General Embryology

- Introduction to Cell division (Cell cycle, Mitosis & Meiosis)
- Gametogenesis (Spermatogenesis & Oogenesis)
- Ovarian & uterine cycles
- Fertilization & Implantation
- First Week of Development after Fertilization
- Second Week of Development
- Third Week of Development (Organogenetic period-1)
- Third to Eighth Week of Development (Organogenetic period-2)
- Third Month to Birth (Fetal Period)
