LEARNING OBJECTIVES

By the end of this lesson, you will be able to:

- Define expository writing and distinguish it from other forms of writing.
- Understand the purpose and contexts of expository writing.
- Identify the various types of expository writing.
- Recognize the key characteristics of effective expository writing.

WHAT IS EXPOSITORY WRITING?

Expository writing explains, describes, and gives information and uses evidence, details, and facts to support the topic.

Expository writing is found in many news articles, textbooks, research articles, how-to guides, exams & essays, where the writer presents information without taking a side or giving their opinion.

TYPES OF EXPOSITORY WRITING

There are several key types of expository writing, each serving a different purpose:

- Description (providing detailed sensory information or painting a picture with words)
- Cause and Effect (exploring causal relationships and outcomes)
- Process Analysis (explaining step-by-step procedures)
- Comparative Analysis (analyzing similarities and differences)
- Classification (organizing subjects into categories)
- Illustration (providing examples to clarify a point & bring abstract ideas to lide)

This work is licensed under a Creative Commons Attribution-NonCommercial-NoDerivatives 4.0 International License.

IDENTIFY THE TYPE.

1. Description 2. Cause and Effect 3. Process Analysis
4. Comparative Analysis 5.Classification 6. Illustration

1. The crown is the visible part of a tooth above the gumline, while the root anchors it within the supporting tissues.
2. Repeated exposure to fermentable sugars can increase acid production in dental plaque, contributing to enamel demineralization.
3. First, the clinician examines the tooth; next, the selected procedure is carried out according to the appropriate clinical protocol.
4. Manual toothbrushes rely on the user's brushing movements, whereas powered toothbrushes use a motor-driven brushing action.
5. Dental caries may be categorized by the surfaces affected, including occlusal, proximal, and smooth surfaces.
6. For example, a patient with persistent plaque accumulation around the gingival margin may exhibit signs of gingival inflammation.

ANALYZE AND IDENTIFY THE TYPE :

Situation

- A student must explain the structure of a tooth to a classmate who has missed the anatomy lecture.

Type of Writing and What should be included?

- Describe the main parts of a human tooth, including the crown, root, enamel, dentine, and pulp. Explain the location and function of each part using precise, understandable language.

Success criterion

- The reader should be able to visualize the tooth's structure from your explanation.

Description

ANALYZE AND IDENTIFY THE TYPE :

Situation

- A dental health awareness team wants to explain to university students why inadequate plaque control can affect gum health.

Type of Writing and What should be included?

- Explain how plaque accumulation can contribute to gingivitis. Describe the relationship between plaque, the body's inflammatory response, and the possible effects of persistent inflammation.

Success criterion

- Establish logical cause-and-effect relationships without making unsupported claims.

Cause and Effect

This work is licensed under a Creative Commons Attribution-NonCommercial-NoDerivatives 4.0 International License.

ANALYZE AND IDENTIFY THE TYPE:

Situation

- During a community dental health session, a dentist asks you to prepare a short written guide for patients who need help improving their brushing technique.

Type of Writing and What should be included?

- Explain the steps involved in effective toothbrushing, from preparing the toothbrush to systematically cleaning all tooth surfaces. Include suitable transitions that guide the reader through the process.

Success criterion

- The steps must follow a logical sequence and be easy to follow. Use current, evidence-based oral-hygiene guidance.

Process Analysis

This work is licensed under a Creative Commons Attribution-NonCommercial-NoDerivatives 4.0 International License.

ANALYZE AND IDENTIFY THE TYPE :

Situation

- A patient asks whether an electric toothbrush is better than a manual toothbrush.

Type of Writing and What should be included?

- Compare the two types in terms of technique, ease of use, cost, accessibility, and evidence concerning plaque removal. Explain relevant similarities and differences without assuming that one option is best for every patient.

Success criterion

- Organize the comparison point by point and reach a balanced conclusion.

Comparative Analysis

This work is licensed under a Creative Commons Attribution-NonCommercial-NoDerivatives 4.0 International License.

ANALYZE AND IDENTIFY THE TYPE :

Situation

- You are preparing a patient education leaflet explaining how daily oral-hygiene habits can support oral health.

Type of Writing and What should be included?

- Explain the importance of consistent oral hygiene and support your explanation with relevant examples, such as brushing with fluoride toothpaste, cleaning between teeth, and limiting frequent exposure to sugary foods and drinks.

Success criterion

- Each example should clarify the main point rather than simply form a list.

CHARACTERISTICS OF EFFECTIVE EXPOSITORY WRITING

- Clarity
- Coherence
- Organization

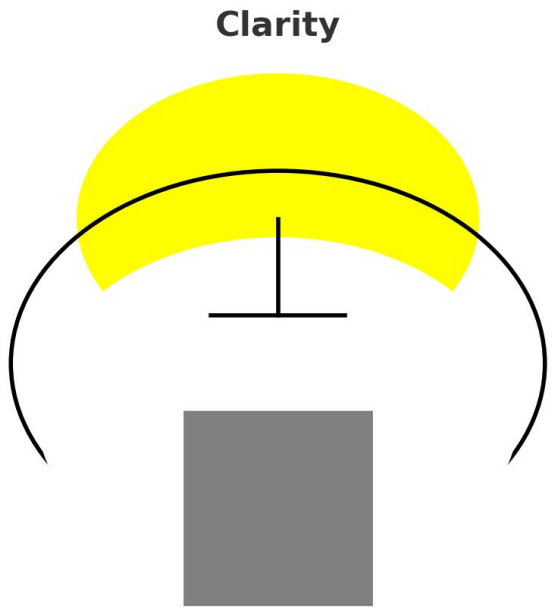

This work is licensed under a Creative Commons Attribution-NonCommercial-NoDerivatives 4.0 International License.

CLARITY

- **Use clear and direct language**
- **Avoid jargon or overly complex terms**
- **Be specific and concrete**
- **Stay focused on the main idea**

Example:

- The project will require a multiplicity of various techniques to achieve the desired result.
- The project will require several techniques to succeed.

Clear and simple ideas

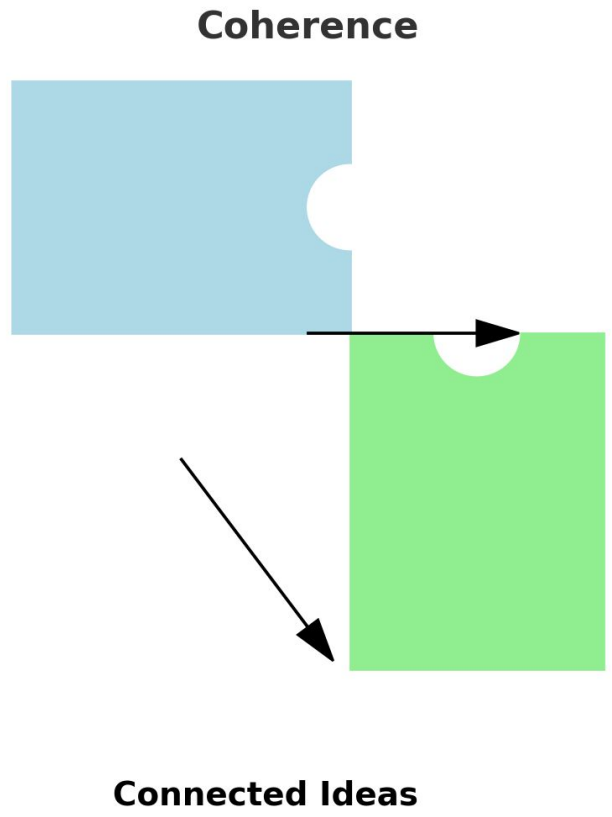

This work is licensed under a Creative Commons Attribution-NonCommercial-NoDerivatives 4.0 International License.

COHERENCE

- **Ensure a logical flow of ideas**
- **Use transitions to connect ideas**
- **Each sentence should build on the previous one**
- **Stick to the main point without digressing**

Example:

- The city has many parks. The crime rate has gone down. It's great for families.
- The city has many parks, which makes it a great place for families. Additionally, the low crime rate enhances the safety of these areas.

1 B

Which of the following sentences best demonstrates maximum clarity by using active voice and eliminating wordiness?

- A) It was decided by the committee that the implementation of the new policy should occur next month.
- B) The committee decided to implement the new policy next month.
- C) In relation to the new policy, the decision for implementation was made by the committee for next month.
- D) Next month is when the new policy will be implemented, according to a decision made by the committee.

2 B

The company invested heavily in new software. Employee productivity dropped significantly.“
Which revision uses the most appropriate transition word to show the logical relationship?

- A) The company invested heavily in new software; **for example**, employee productivity dropped significantly.
- B) The company invested heavily in new software; **however**, employee productivity dropped significantly.
- C) The company invested heavily in new software; **in addition**, employee productivity dropped significantly.
- D) The company invested heavily in new software; **as a result**, employee productivity dropped significantly.

1 A

Which sequence places these sentences in the most logical order?

1. Once approved, the revised budget will be distributed to department heads.
2. The finance team completed the initial draft of the annual budget last Monday.
3. Department heads will then have two weeks to allocate funds to their respective teams.
4. Currently, the executive board is reviewing the draft to ensure all projections align with company goals.

a) 2 – 4 – 1 – 3

b) 2 – 1 – 4 – 3

c) 4 – 2 – 1 – 3

d) 1 – 3 – 2 – 4

2 B

Which sequence places these sentences in the most logical order?

1. If the light remains red after the reset, contact customer support for a hardware replacement.
2. First, unplug the router from the power outlet and wait for at least thirty seconds.
3. Reconnect the power cable and monitor the status indicator light until it turns solid green.
4. Experiencing an unstable internet connection can often be resolved with a simple power cycle.

a) 2 – 3 – 1 – 4

b) 4 – 2 – 3 – 1

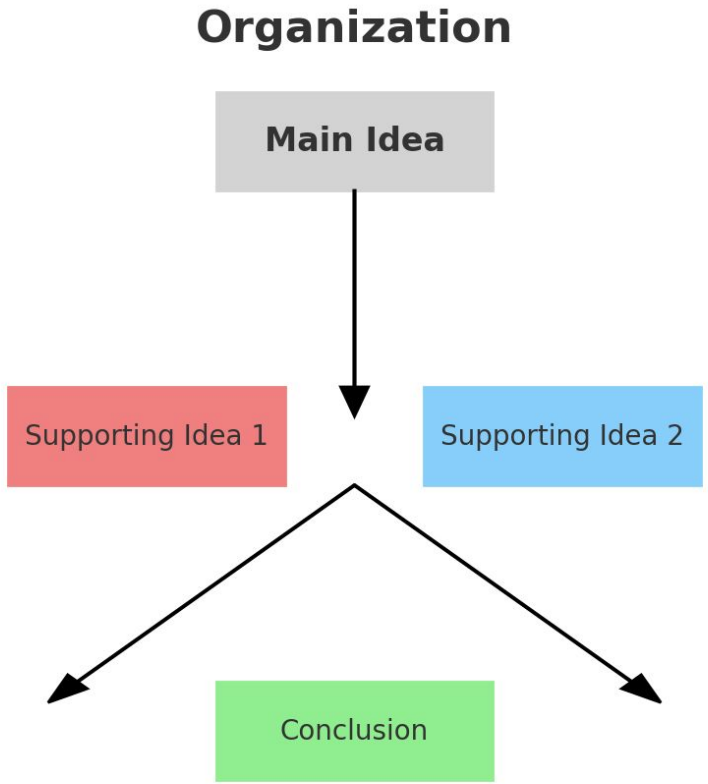

c) 4 – 3 – 2 – 1

d) 2 – 4 – 3 – 1

ORGANIZATION

- Clear Structure: Introduction, body, conclusion
- Focus on one main point per paragraph
- Arrange information logically
- Use headings or bullet points for clarity

This work is licensed under a Creative Commons Attribution-NonCommercial-NoDerivatives 4.0 International License.

ORGANIZATION

Example:

- Many people are surprised to learn that honey never spoils. In fact, archaeologists have discovered pots of honey in ancient Egyptian tombs that are over 3,000 years old and still perfectly edible. The secret to honey's long shelf life lies in its chemical composition. Honey is naturally acidic and has very low moisture content, which prevents bacteria and microorganisms from growing. This makes it an ideal preservative. Additionally, honey is hygroscopic, meaning it absorbs moisture from the environment, further protecting it from spoilage.

SUMMARY

- Expository writing aims to explain, describe, or inform objectively and logically.
- Common types include description, illustration, classification, cause and effect, process, and comparative analysis.
- The purpose of expository writing spans academic, professional, and everyday contexts.
- Effective expository writing is marked by clarity, coherence, and strong organization.
